LOGIN

Create your training account

- ✓ Sign up for a new account on the left
- ✓ Type in your name
- ✓ Type in your **official academic email address** (NOT your private email address). This is necessary to prove your status as an academic
- ✓ Check if there are any typos in your email address
- ✓ Remember your password
- ✓ Type in your university/institution or affiliation
- ✓ You don't need a specific enrollmentkey
- ✓ Choose 'Partner' in the drop-down field

STEP 3: ACTIVATE YOUR ACCOUNT

1st automatic email

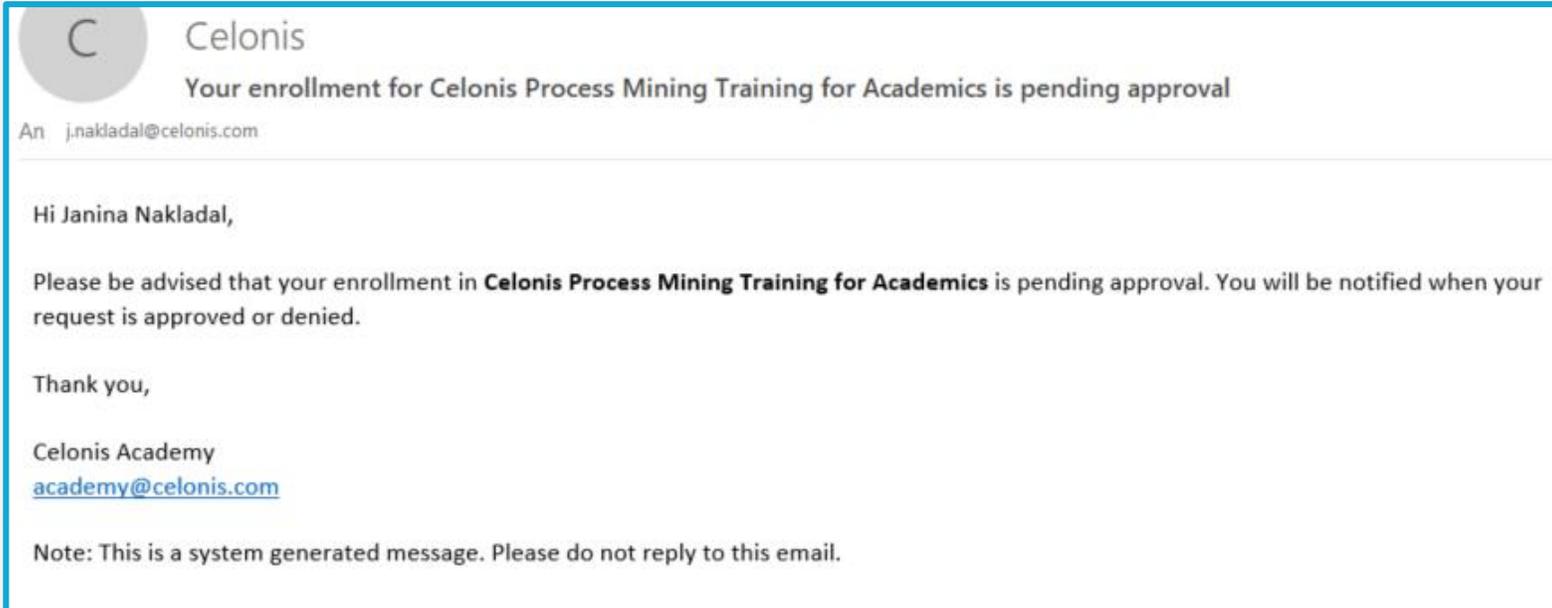

- ✓ After registration, you will **receive three automatic emails**
- ✓ The **first email** with the subject: *“Welcome to Celonis”* informs you about the successful creation of your account for the Learning Management System
- ✓ Your username is your academic email address
- ✓ You can now login to the Learning Management System

STEP 3: ACTIVATE YOUR ACCOUNT

2nd automatic email

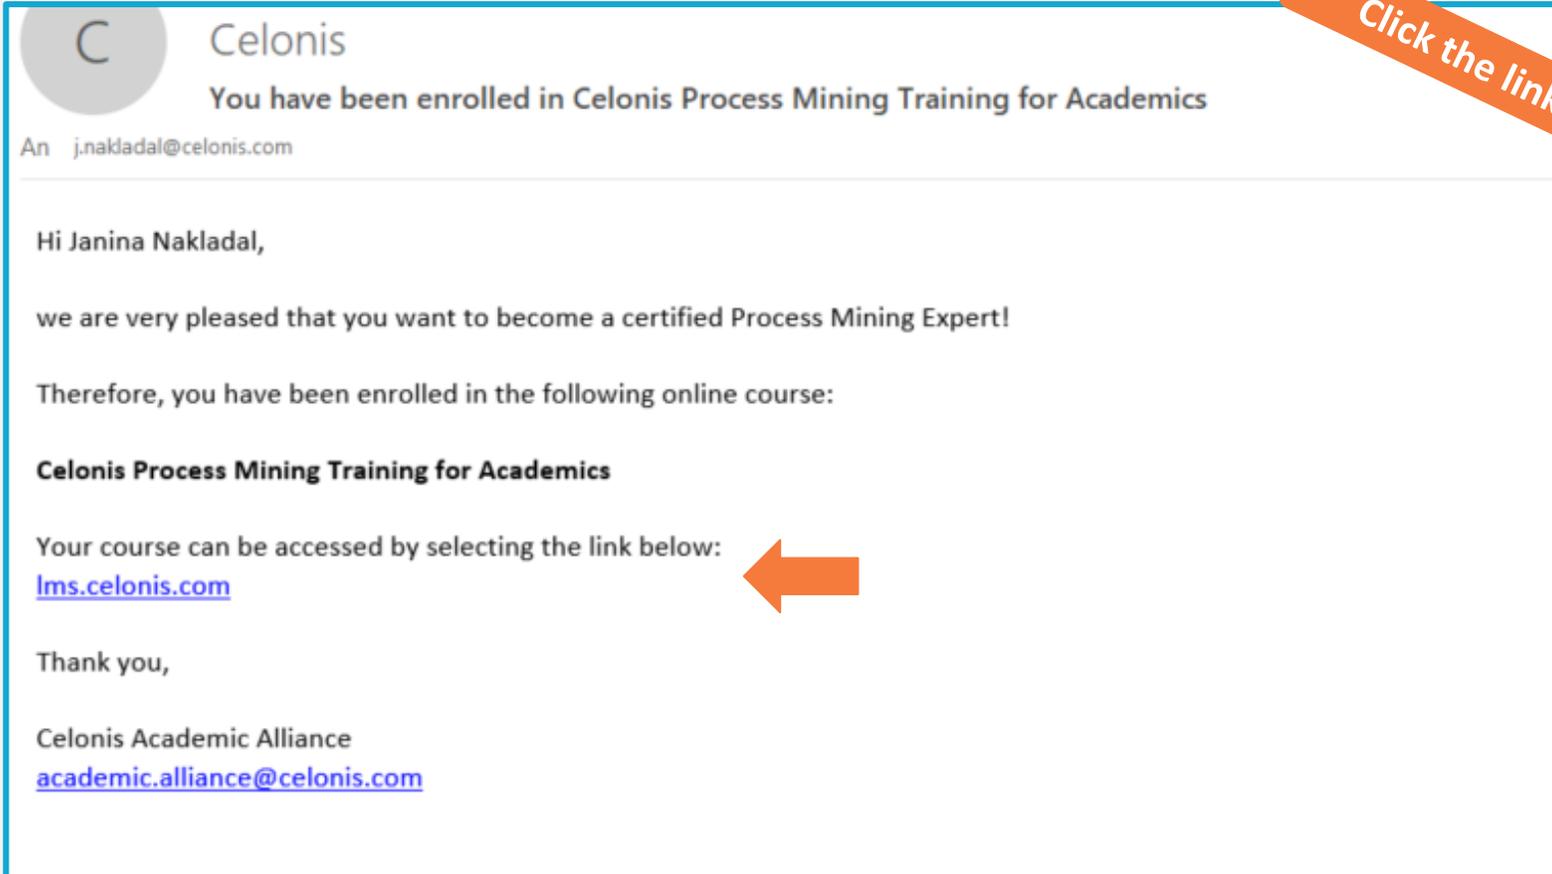

- ✓ The **second email** tells you that your enrollment for the Celonis Process Mining Training for Academics is pending approval
- ✓ If you signed up with your academic email address, an admin will approve your request as soon as possible
- ✓ Please wait some time (max. 2 business days)

STEP 3: ACTIVATE YOUR ACCOUNT

3rd automatic email

- ✓ The **third email** confirms your successful enrollment in the Celonis Process Mining Training for Academics
- ✓ You can access the online training via the Learning Management system
- ✓ **Click on the link in the email**

STEP 4: ACCESS THE ONLINE COURSE

Login and Launch Course

- ✓ After verifying your account, you can access the Learning Management System
- ✓ Go to <https://lms.celonis.com/#/signup>
- ✓ Login with your credentials
- ✓ Access your personal training environment
- ✓ Click on „My Courses“ to find the Celonis Process Mining Training for Academics
- ✓ Click on „Launch“

The image displays two screenshots of the Celonis Learning Management System (LMS) interface. The top screenshot shows the user's home page with a navigation menu on the left. The 'MY COURSES' option is highlighted with an orange arrow. The bottom screenshot shows the 'MY COURSES' page with a search bar and a 'LAUNCH' button highlighted with an orange arrow.

The top screenshot shows the Celonis LMS home page. The user is logged in as JANINA NAKLADAL. A notification banner at the top states: "Your new username is: j.nakladal@celonis.com, please take a moment to remember this and the new password you created to avoid creating a duplicate account when you return." The main content area features a 'HOME' header and a list of options: 'RESUME' (Nothing to resume yet), 'MY COURSES' (See courses you are enrolled in), 'RESOURCES' (Browse or download resource), and 'CATALOG' (See a complete list of available courses). The 'MY COURSES' option is highlighted with an orange arrow.

The bottom screenshot shows the 'MY COURSES' page. The user is still logged in as JANINA NAKLADAL. The page has a navigation bar with 'HOME', 'MY COURSES', and 'CATALOG'. A search bar is present with the text 'Search 'My Courses''. Below the search bar, a course is listed: 'CELONIS PROCESS MINING TRAINING FOR ACADEMICS' (Online Course). The 'LAUNCH' button for this course is highlighted with an orange arrow.

Train yourself

- ✓ The Celonis Process Mining Training for Academics consists of videos, reading material and exercises
- ✓ Each element starts by clicking on “Launch”
- ✓ You have to work through the course step by step. If you finish one week successfully, you unlock new material
- ✓ Solutions for the exercises at the end of one week are provided in the following week
- ✓ You can do the training at your own pace
- ✓ The course will **expire after 6 months**. After that you have to request a new enrollment and lose your progress

CELONIS PROCESS MINING TRAINING FOR ACADEMICS

The Celonis Process Mining Training for Academics covers the fundamentals of applied process mining. After successful completion, participants have advanced skills in Celonis. They are able to apply process discovery functions and conformance checking to detect and narrow down process inefficiencies and their root causes. Participants are also acquainted with a broad set of analysis functionalities and their configuration. They... [More](#) ▼
